WeEvolve

1. Project idea

- A web-based platform to easily create rich virtual reality experiences.
- An SDK and VR apps that enable easy distribution of content built through the platform.

2. What's innovative about it?

- Allows anyone to build VR content!
- No need for any technical knowledge about 3D design and development.

3. The services you can offer?

- Expertise in building virtual reality experiences

4. The partners/services you seek?

- Investors (seed stage)
- Individuals/agencies with 3D design skills, and game design and development skills.
