

CAMBRIDGE INDUSTRIAL DESIGN

Inspiring design Innovative solutions

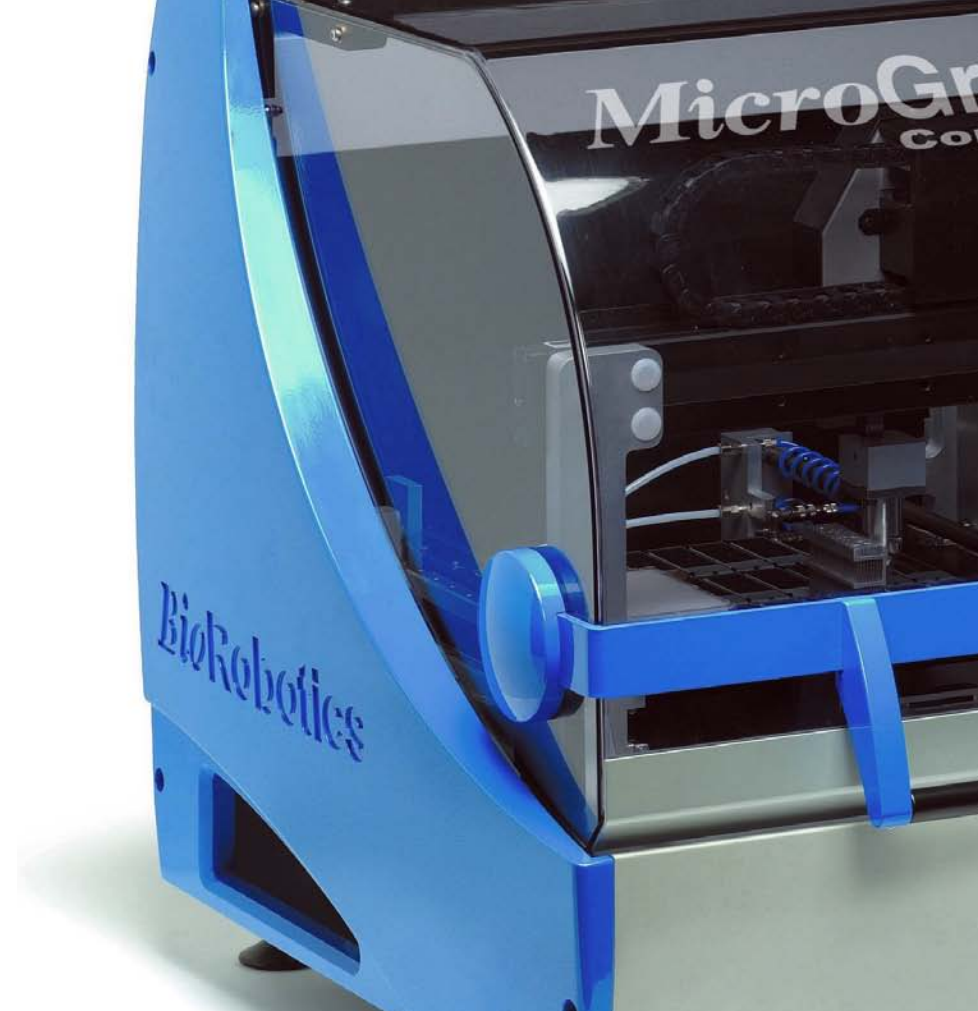

Over many years, and across a wide range of markets, Cambridge Industrial Design has contributed to the success of products with eye-catching aesthetics, sound engineering and effective design for manufacture.

'99 INDUSTRIAL DESIGN EXCELLENCE AWARDS

We can develop your product from scratch or complement your own in-house team, whichever suits your project. Our collaborative and flexible approach means that you will be involved in the decision-making process at all times.

Contact us for a full client list.

We have worked with clients in many sectors across the world, including:

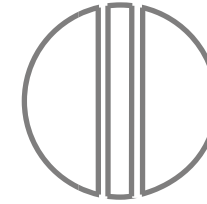

Tel: + 44 (0) 1223 872012 Email: info@cambridge-industrialdesign.com

Our extensive links with toolmakers and moulders in China mean that we have access to fast and effective production at a competitive price.

If you prefer to work closer to home, we are happy to source UK suppliers – we have a wide network of specialists we can call on, from model makers to tool makers. Alternatively, of course, we can work with your existing suppliers.
