## About us

- We are the UK's only wholly postgraduate university
- We work closely with industry, providing teaching and high-impact research
- Our Transport Systems theme has expertise in all transport domains
- Our have a track record of over 50 years of state-of-the-art work
- We have excellent systems integration facilities – and our own airport!
- We also do 'soft' aspects of transport: human factors, logistics & management

## What we can offer

- Logistics and complex systems
- Data analytics and 'big data'
- Autonomy, control and communications
- Mechatronics/system integration
- Modelling and simulation
- Manufacturing and cost engineering
- Wide 'transport systems' capability

## What or who we are seeking

- Industry partners
- Real-world challenges
- Potential users of our facilities
- Long-term business partnerships

## MUEAVI

- Real-world testing for autonomous systems – expected by Jan 2017

## Airport

- Fully operational airport at university main site
