### About us

- We do freight movement
- We are intermodal, managing road, rail and water-borne freight
- We are in the cloud
- We are familiar with the InnovateUK process and have won two competitions
- We are currently developing container hire and backhaul capability in UK and intend to expand the concept into Europe

## What we can offer

- Knowhow
- A live, cloud-based intermodal platform
- Real-time tracking

## What or who we are seeking

- Like-minded Partners

## What's your innovation/idea

- Automated multi-modal one-stop shop for freight movement

## What's the market opportunity you are addressing

- Send anything, of any size, anywhere, by the best possible means.
