About us

- The independent transport watchdog
- Representing the interests of rail users nationally and bus, coach and tram users across England outside London
- And from this April, users of the Strategic Road Network in England
- Useful, independent and always evidence-based

What we can offer

- Evidence based research
- Influence industry policy and practice through links with government and transport industry

What or who we are seeking

- To work with partner/s on new and innovative approaches to improving users experience of the end-to-end journey

What's your innovation/idea

- Open to ideas from partners

What's the market opportunity you are addressing

- Transport User information on joined-up journeys
- Providing improved end-to-end journey experience
- New technology being more accessible
