the
**Knowledge Transfer
Network**

5-point plan for future growth

- **Working with the research community and across government** to turn scientific excellence into economic impact, and improve efficiency.
- **Accelerating UK economic growth**, nurturing small, high-growth companies, helping them to become high-growth mid-sized companies with strong productivity and export success.
- **Building on innovation excellence throughout the UK**, investing locally in areas of strength.
- **Developing Catapults within a national innovation network**, to provide access to cutting edge technologies, encourage inward investment and enable technical advances in existing businesses.
- **Evolving our funding models**; exploring ways to help public funding go further.

The background consists of several colored rectangular blocks. At the top, there are three blocks: a light green one on the left, a dark teal one in the middle, and a bright green one on the right. Below these is a large, solid blue horizontal band. At the bottom, there are three more blocks: a dark blue one on the left, a very dark blue one in the middle, and a dark green one on the right. The text 'Thank you' is centered in the blue band.

Thank you
