

# European Funding for Bio-based Industries: Information and Consortium Building Workshop

3rd March 2016, Manchester

## Programme Agenda

This free to attend event will give details about the new call for proposals from the European Bio-based Industries Joint Undertaking, which opens in April. This event is aimed at companies and research organisations that are interested in European Funding for Bio-based Industries and who wish to work with European counterparts in collaborative research and innovation projects. The morning session will highlight information about the 2016 call for proposals (2.2.6 onwards) from the Bio-based Industries Joint Undertaking and the afternoon will be highly participative in support of consortia building and proposal development.
