Atkins ([www.atkinsglobal.com](http://www.atkinsglobal.com)) seeks academic collaborators for the Environmental Risks to Infrastructure Innovation Funding Call

Atkins is a global infrastructure consultancy providing design and advisory services to a range of infrastructure owners and operators.

We have a long-standing interest in environmental risks to infrastructure in relation to design and operation.

We are looking for academic collaborators in the following areas:

- Infrastructure vulnerability to space weather
- Future risks of extreme weather to linear infrastructure networks
- Managing future uncertainty (including climate uncertainty) in long-term investment decisions
- Future climate extremes in developing countries

Please contact Dr Geoff Darch ([geoff.darch@atkinsglobal.com](mailto:geoff.darch@atkinsglobal.com)) to discuss further.
