Industry Success Through Research Partnerships

Dr James Deverill
Director of Research and Innovation, SAIC
james@scottishaquaculture.com
• Farmed salmon is the UK’s largest food export.

• Aquaculture contributes an estimated £1.8bn to the UK economy.

• Every 10,000 tonnes of salmon that reach the market creates an estimated £96 million for the UK economy.
Industry Growth Through Collaboration

SAIC exists to help remove **industry identified bottlenecks** through grant funded applied research projects.

☑ Lead applicant **MUST** be a commercial company.

☑ Lead applicant **MUST** be partnered with a Scottish HEI.

☑ Application **MUST** deliver a benefit to the Scottish aquaculture industry.
